Automatic Film Splicer – Douglas Shrink Wrap Systems

ALEXANDRIA, MN. (March 31, 2016) – The Douglas Contour™ Series M-60 Multiwrapper with Automatic Film Splicer allows operators to stage clear or printed film while machine is running. Splicing is automatic, without an operator present, resulting in precise print registration and reduced machine downtime. The multiwrapper runs single, dual or triple stream bundles of PET bottled water at various cycle speeds, up to 60 per minute, to meet the filler rate.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of cartoners, sleeves, case/tray packers and shrink-wrap systems. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit www.douglas-machine.com.
