Integrated Bottom and Top Load Case Packers for Breakfast Patty Line

ALEXANDRIA, MN. (November 30, 2016) – A Douglas Ascend™ bottom load case packer loads 48 flash frozen breakfast patties into RSCs. This solution ensures that stacked patties stay uniform while loading. The cases are bottom-sealed with glue and taped on top at 30 cases per minute. Downstream, an integrated Douglas TriVex® top load case packer loads the cases into a larger shipper case.

About Douglas Machine Inc.

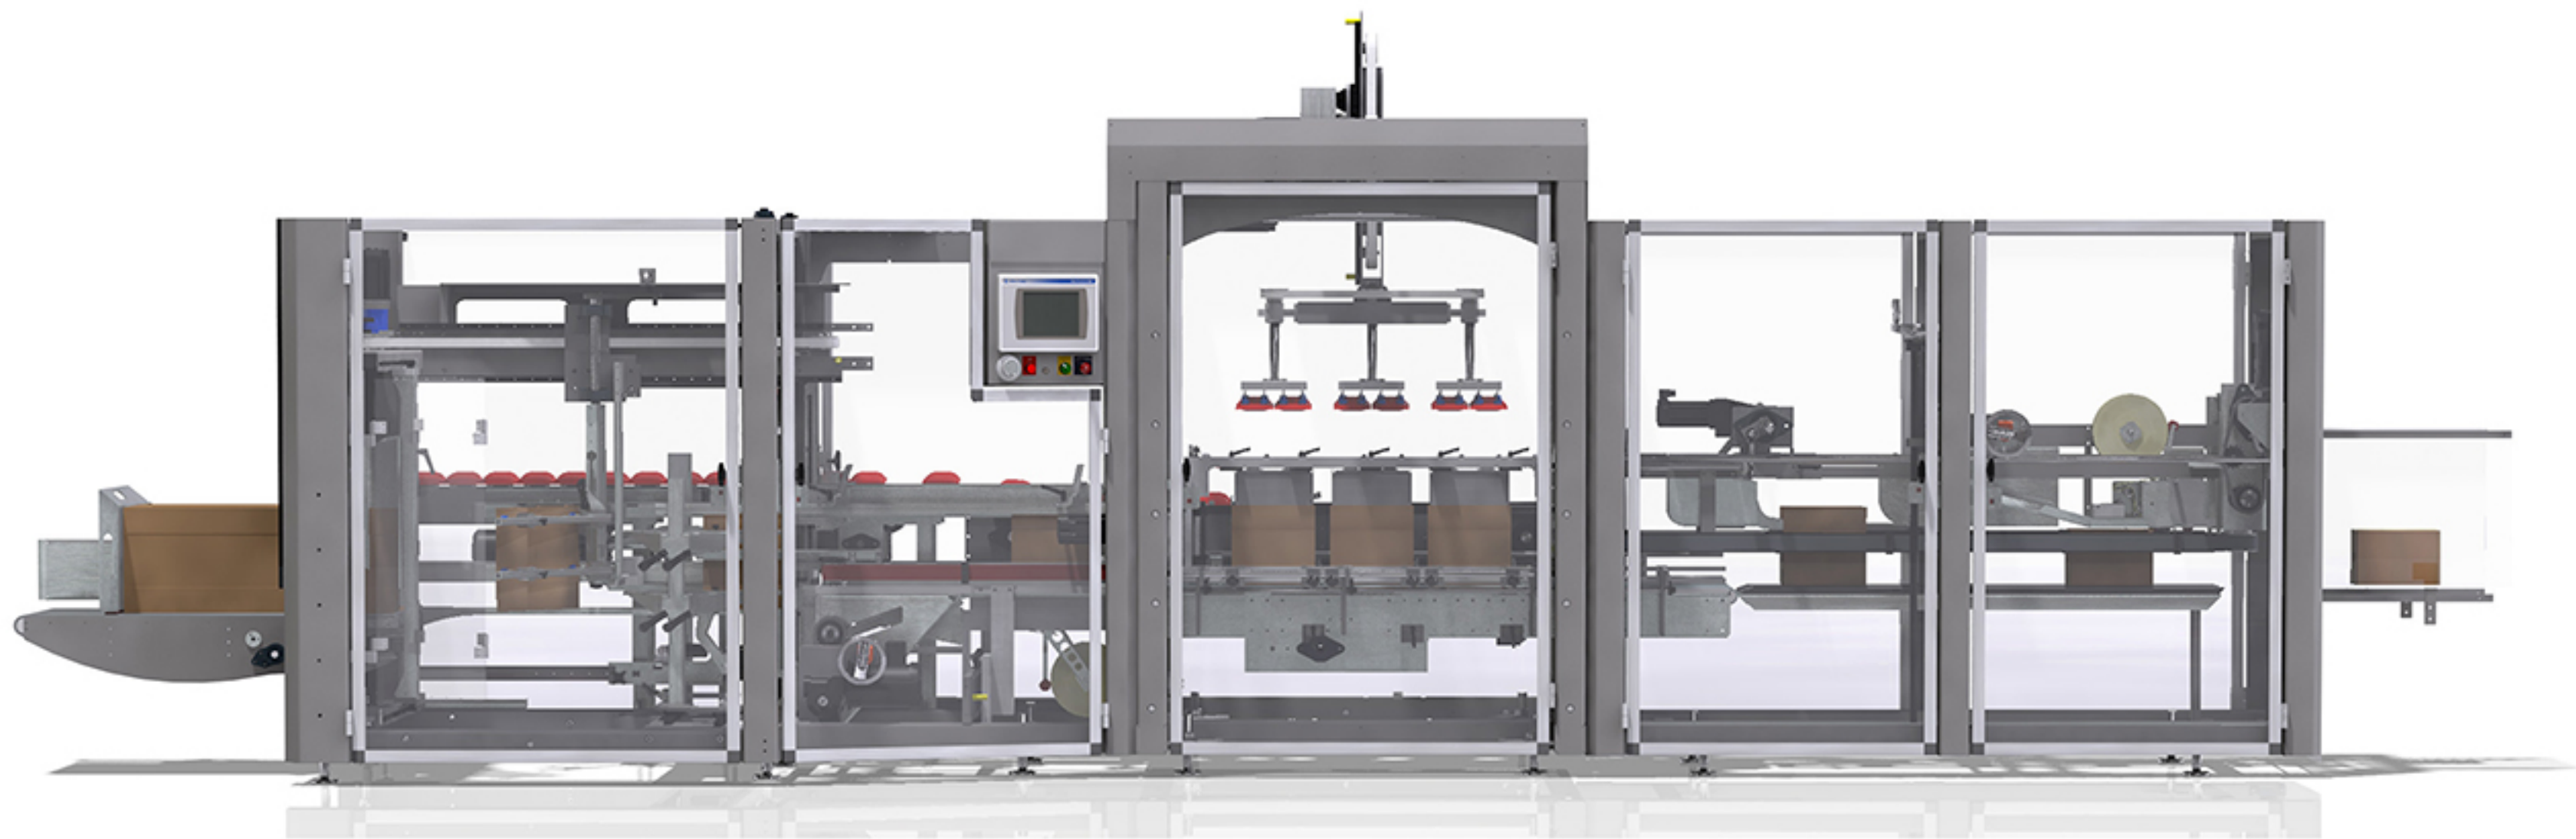

Founded in 1964, Douglas Machine Inc. is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of cartoners, sleeves, case/tray packers, shrink wrap systems and palletizers. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit www.douglas-machine.com.
